

In the rainbow river of music
I float in the colored tunes
Stopping to bask on a rainbow rock in the sun
I sip the words of endless sound
And feel the colors it brings
I sing and dance on the colored grass
Under the rainbow treetops
In music's world my imagination runs wild
And howls with the wolves of the heavy blue
And meets in the middle
With rhinestone eyes
As I stay
And the genie with the thief
And Matilda with her words
It all swirls around me in music's rainbow river
